

Baptist Village, Inc.
COVID-19 Focused Infection Control Disclosure

Testing is done with guidance from the Department of Public Health. The information provided below demonstrates **all three of our facilities in one chart**; please pay close attention to the facility name at the top of the chart.

Date	04/22/24	04/22/24	04/22/24
Name of the Facility	Healthcare Facility	Village Lake Suites-PCH	Plantation Suites-PCH
Location:	Waycross	Waycross	Macon
Total Positive COVID-19 Residents (Active Positive)	0	0	0
# Residents in Quarantine at the facility*	0	0	0
Total Positive COVID-19 Staff (Active Positive)	1	0	0
# Staff in Quarantine at Home*	0	0	0
New set of three or more residents OR staff with new onset respiratory symptoms within a 72-hour period?	NO	NO	NO

****JOJ** - Breakthrough cases of fully vaccinated staff members have tested positive.

*Quarantine is a preventative measure used for any resident or staff exhibiting signs and symptoms (fever, cough, shortness of breath, etc.) of acute illness as described by the CDC.

NOTE: Our current test strategy in the nursing home is based on outbreak status and exposure. We adjust this strategy as necessary to help with mitigation efforts. Unless testing or a confirmed positive directly affects your resident, you will not receive a phone call. We communicate random results through this form posted to Facebook and on our website as well as notification to residents.

Mitigation Measures: We are taking steps based on guidance from the Centers for Disease Control and Prevention (CDC), the Department of Public Health (DPH), and the Center for Medicaid and Medicaid Services (CMS) to reduce the spread and impact of COVID-19, such as (not all-inclusive):

- Enhanced infection control precautions
- Screening residents, staff, and visitors for an expanded list of symptoms
- Testing staff and residents for COVID-19 based on current protocols.
- Educating staff and residents about the vaccine
